STRADIVARIUS

Comfort Meets Cool

/7 October, 2025

Stradivarius introduces a new capsule collection, Casual Sport, with a sporty, urban-inspired approach — designed to be worn both in the heart of the city and in a remote valley with no signal.

The brand unveils its most comfortable and cool capsule yet, created for those who love to romanticize life and live it at a slower pace. A collection made for fans of sourdough bread, hidden little shops, and the kind of wind that tousles your hair just right. This capsule celebrates the beauty of everything natural — and everything trendy.

The collection features standout pieces such as reversible quilted jackets in faux shearling or corduroy, parkas and soft sculpt leggings in autumnal shades like green, burgundy, navy, and black. It also includes printed sweatshirts and coordinated jogger-and-sweatshirt sets for effortless total looks. The footwear is as original as it is versatile: rubber-look boots, leather ballerina-style sneakers, and open-back trainers with a bold cow print.
