

Playful Era

/18 August, 2026

Stradivarius presents a new collection that celebrates fashion as a space for play, experimentation and self-expression. Nostalgic yet creative, the new proposal revisits codes from past decades and brings them into the present through unexpected combinations. Because getting dressed can also be a way of playing: mixing, trying and reinterpreting pieces to make them your own, with few rules and plenty of personality.

Contrast becomes the starting point of the collection. Sporty-inspired jackets, sweatshirts and technical pieces meet denim, checks and more feminine silhouettes. Stirrup leggings, oversized Bermuda shorts, wide-leg trousers and miniskirts are styled with striped tops and voluminous outerwear. The result is an eclectic mix that moves effortlessly between sporty and delicate, with khaki, grey, navy and burgundy defining the colour palette.

Accessories continue this interplay of contrasts. Ballet flats and heeled shoes are paired with sports-inspired silhouettes, while headbands and subtle retro details complete the looks.. A wardrobe designed for the creatives, for those nostalgic for decades they never lived through and, above all, for those who see fashion as an excuse to have fun.
