STRADIVARIUS

Stradivarius x Yellowstone

/22 July, 2025

Some series are not just watched; they are lived. Yellowstone is one of them. Five seasons of intense drama, epic landscapes, and an unmistakable aesthetic inspire Stradivarius' new collection, capturing urban elegance with the essence of the Dutton Ranch.

The global phenomenon known as "western-core," a blend of American heritage and cosmopolitan sophistication, has firmly established itself on runways and streets. Stradivarius reinterprets this style, drawing inspiration from the series Yellowstone and its most iconic characters, with pieces that embody the soul of the West.

Stradivarius' new collection celebrates the visual aesthetics of Yellowstone and includes wide-brimmed hats, cowboy-style boots, and character-rich jackets, along with two tops specially designed in reference to the series. These are complemented by wide-cut denim or skinny jeans tucked into cowboy boots.

Scarves tied around the neck or head, maxi bracelets, shorts, and mini skirts with wide belts complete the looks. The colour palette is inspired by the ranch's natural surroundings, featuring earthy tones ranging from brown to toasted hues, recreating the rustic essence of the Dutton universe.
