STRADIVARIUS

Unleashing Cutness

/22 October, 2024

Stradivarius presents its new collection of faux fur jackets and accessories with a very special cast of models. Hermy, Bertie, Kiwi, Poncho, Valentina, Paquito, Pocholo, Bimba, and Bruc are part of the Stradivarius family and also the stars of the brand's latest campaign.

They take the lead in showcasing a collection of soft, warm, and ultra-comfy pieces, designed to perfectly blend comfort and style. These key seasonal items are meant to be worn boldly and with attitude—and, of course, alongside our most loyal and adorable companions.

The collection features double-faced biker jackets, faux fur-effect coats, quilted jackets, sweaters and vests with dog prints, as well as knitted cardigans, oversized scarves, studded ballerina flats, and fluffy hats.
